

CALIFORNIA LEGISLATURE—2025-2026 SIMULATION SESSION
SENATE BILL **NO 15**

Introduced by Senator Marie Alvarado-Gil

October 1, 2025

This bill aims to provide housing for unhoused individuals, as well as health benefits, and reintroduce them into the workforce.

LEGISLATIVE COUNSEL’S DIGEST

SB 15, as introduced, Alvarado-Gil. Shelters for Communities and Agriculture Management

Existing law currently states that it is prohibited for an unhoused individual to be housed in a public area without permission. An unhoused individual may be charged with a misdemeanor if found guilty of willfully obstructing an area.

This bill would create both job opportunities for unhoused individuals and provide them with housing. Unhoused individuals will be allowed to move to a homeless shelter, where they will receive the necessary support and be offered the chance to work. If they agree to work, they will be relocated to a rural area where they can access agricultural work, along with free housing, counseling, and a paid job at the minimum wage.

New housing facilities will be constructed for the unhoused individuals. Housing apartments will be built for 50 individuals who are currently unhoused. Agriculture will be a prioritized job to utilize the unused space in rural areas. Multiple jobs will be provided, and the unhoused individuals will be allowed to choose.

Multiple agencies must work with the new homeless shelter. That includes the California Housing and Homelessness Agency, the Department of Housing and Community Development, the Department of Social Services, and the Department of Health Care Services. As well as the local government to supply the land and jobs.

This bill requests \$15 million United States Dollars.
