

SENATE BILL

NO 64

Introduced by Senator Arreguín

September 28, 2025

An act to amend Chapter 732, Section 2 of the Health and Safety Code, along with the Education code, Division 3 Local Administration, Part 25 Employees, Chapter 1 Employees. In regards to the prioritization of occupancy to school district employees and designated social workers in affordable rental housing land that reside upon school-district owned land, which receive allocated local or state funds or tax credits.

LEGISLATIVE COUNSEL'S DIGEST

SB 64, as introduced, Arreguín, The Prioritized Applicants of Affordable Housing Units on School-District Owned Land.

The original Education code, intended to target smaller school districts around California, was given the ability to contract social workers as counselors within schools, as well as within the homes of pupils.

The amendment enforces that all governing board school districts across California hold the obligation of contacting qualified social workers within schools and affordable housing units located on school district owned lands. While reinforcing a social workers job to provide quality resources for all school district members, students, and families.

The original Health and Safety code policy permits school districts and developers receiving local or state funds, or tax credits designated for affordable rental housing units on school district land the ability to prioritize and restrict occupancy of teachers, school district employees, and nonprofit organization employees, so long as such housing does not violate any other applicable laws.

The amendment revokes school districts and developers the ability to restrict affordable rental housing to teachers, school district employees, and nonprofit organization employees on the basis of their employment. Additionally, requiring such affordable housing units to prioritize social workers, along with designated school social workers on the basis of their employment.

Ultimately, providing school district members, along with designated social workers with the opportunity to benefit from affordable housing units funded by local or state funds, or tax credits. While establishing a public safety resource within such affordable housing units, providing accessibility to all housing residents.
