Support of SB-11, Minimum all gender restroom student ratio

The Honorable Ben Allen Chair,
Senate Committee on Appropriations and Rules
1021 O Street, Suite 6610 Sacramento, CA 95814

Dear Chairperson Allen
and Senate Appropriations
and Rules Committee members,

The University of California writes in confirmation of our support for senate bill 11, a minimum all gender restroom to student ratio, be implemented in schools statewide. **Under current legislation all schools are required to have at least one gender neutral bathroom available to students**, while this is a proactive step in aiding and accommodating gender non conforming and transgender individuals, the bill under current law does not take into consideration the ratio of students to one bathroom per school. This can lead to issues of overcrowding or students not being able to properly access a restroom when they need to. SB-11 resolves this by requiring the 1:300 ratio, ensuring that there is at least one all gender restroom available for every 300 students. This guarantees access for transgender/gender non conforming students while taking into account accessibility.

Not only does SB-11 provide and accommodate for transgender students, enacting this **bill would also accommodate non- transgender students and parents** that may be skeptical or uncomfortable sharing a facility with a trans or gender non- conforming person. This bill enacts protections and accommodations for **all students** wherever side on the aisle they may be. The UC strives to support the convenience and well being of all students, SB-11 provides an inclusive option that accommodates students who need them while leaving **students who prefer a traditional bathroom setting experience unchanged**.

For these reasons, The UC strongly urges your “Aye” on Senate Bill 11.

Sincerely,

Annalise Langford
Executive Assistant
University of California, Office of the President
