Support of SB-71, Protecting Community Spaces from Immigration Enforcement

The Honorable Ben Allen Chair,
Senate Committee on Appropriations and Rules
1021 O Street, Suite 6610 Sacramento, CA 95814

Dear Chairperson Allen
and Senate Appropriations
and Rules Committee members,

The University of California hereby writes in support of SB-71, Protecting Community Spaces from Immigration Enforcement, which seeks to prevent immigration enforcement from conducting activities in locations such as schools, workplaces, places of worship, and private residences, **except in the case of position of a valid judicial warrant**. In the previous months the State of California has been subject to unlawful raids of California residents by immigration enforcement. These raids have taken place on schools, daycares, farms, ranches, fields, workplaces, places of worship and even private residences.

Due to the lack of foundational grounds in place for ICE agents, these raids end up being: chaotic, inefficient, and unsuccessful. Because of this lack of legal foundation, immigration officers rarely have probable cause for arrest, by requiring that agents have valid judicial warrants, not only do they have probable cause for arrest, all arrests they conduct will be **legal, and indisputable**. This bill seeks to set that foundational ground for immigration enforcement so that their work can be done, safely, legally, and efficiently. Unprecedented mass raids can cause widespread panic and fear, this aspect is incredibly important to the University of California. Order and lawfulness is something we strive to maintain on all **ten of our campuses**. Orderless raids cause not only our students, but our constituents as a whole to lose trust in our institutions and lose **trust in those they elect to uphold our institutions**. SB-71 is unique in comparison to other pieces of legislation presented in regards to ICE as it is the only piece of

legislation that requires set legally required protocol for ICE agents to follow before they conduct their work at any locations set by the bill. It is the University of California's duty to uphold the stability and order not just on our campuses but throughout our districts as well, which is why we humbly urge your "Aye" on Senate Bill 71.

Sincerely,

Annalise Langford
Executive Assistant
University of California, Office of the President
